

MSRP Project 2018

Title: The Impact of the UF COM's Nutrition Intensive on Medical Students' Perceptions and Step Scores

Faculty Mentor Name, Email: Carolyn G. Carter, MD, cartcg@shands.ufl.edu

Faculty Mentor Department: Pediatrics

Research Project Description:

The purpose of this study is to evaluate the impact of the UF COM's Nutrition Intensive for first year medical students on the perceptions those students have regarding their use of nutrition in clinical rotations and the impact it has on their step scores. It is hypothesized that this course will positively influence student's confidence and use of nutrition with patients and that it will improve their step scores. Surveys will be used to obtain information. There is no additional funding for this study. A poster presentation or publication is expected.
